The Senior Class

The biggest moment in a student's college career is the moment when she receives her diploma. It is this step that concludes hours of studying, days and evenings of classes, various club meetings and all other religious and social activities that are symbolic of college. It is this step that begins a new life for each member of a graduating class. It is this step that the Class of 1960 is about to take and we hope that each one of us will be able to well adapt herself to the future, whatever it may be.
